Government polytechnic College – Coimbatore. (Electrical and electronics engineering 2019-2020)

KPR Institute of Engineering And Technology. (B.Tech- Artificial intelligence and data science)

Skills:

Python, Java, SQL ,(Basic)

Data Analytics, Data Visualization

Power BI, Tableau, Excel

HTML, CSS, JavaScript(Basic)

WORK AND INTERNSHIP EXPERIENCE:

Kendex Company – Electrical Panel Board Assembly (2022 – 2023)

Gained hands-on experience in troubleshooting and optimizing electrical circuits.

Squash App – Frontend & Backend Development Intern

Worked with technologies like HTML, CSS, JavaScript, and backend frameworks.

Krishtec – Data Science Intern

Gained hands-on experience in data preprocessing, model building, visualization, and applying machine learning algorithms for predictive analytics on real-world datasets

Novitec Company – Data Analytics Training

Trained in advanced data analytics techniques, utilizing Python and Excel to analyze large datasets and derive actionable business insights for decision-making.

PROJECTS:

LLM Evaluation Frameworks and Benchmarking Across Domains - Evaluated LLMs using traditional (ROUGE, F1, BLEU) and RAGAS metrics. Visualized performance across domains for context relevance and faithfulness.

YouTube Trending Tracker & Video Analysis - Analyzed YouTube trends to provide insights for content creators.

Diabetic Detection Web Application – Built a web app to detect diabetes by enhancing classifier performance using feature selection techniques.

Data Visualization with Power BI & Tableau - Developed interactive dashboards for business insights.

CryptoWatch – Real-Time Cryptocurrency Market & Sentiment Tracker Python, Streamlit, CoinGecko API, SQLite, VADER.
